Martin Salinas
Software Craftsman

Most experienced in Web Platform development.

What does Software Craftsmanship mean to me? Commitment to quality.
I deeply care about well-architectured solutions with clean, efficient and expressive code.

I enjoy challenges, learning, and the mind excercise of representing abstractions with language. That's why I love programming!

Began programming at age 14 (year 2006), mostly self-taught.

Throughtout the years, I've built for Web1 and Web2
Now I'm ready to buidl Web3 and Web5 - whatever that means.

Open to frontend, middle-end and backend positions.

Working 100% remote since 2019

Work

White Prompt
SR Fullstack Engineer
July 2021 - December 2021

BairesDev
SR Frontend Engineer
March 2019 - December 2020

Quadion
Fullstack Engineer, SSR
May 2017 - August 2018

Globant
Frontend Engineer, SSR
September 2014 - October 2016

Izus

Fullstack Engineer
May 2011 - October 2013

Responsible for building, deploying and maintaining web sites and apps. LAMP stack, CakePHP, jQuery, AngularJS

Comtron

Intern
January 2006 - February 2008

LAMP stack, CodeCharge, Delphi/ObjectPascal

Volunteer

gulBAC

Core Member

📅 September 2007 - April 2012

Free Software activism
Organized several install-fests (FLISOL) and conferences
Tech support to FLOSS users

DebConf8 (Debian Conference)

Volunteer

📅 August 2008 - August 2008

Helped with several technical and logistical tasks, as well as active part of the Video team, streaming and recording live talks.

ICANN Meeting 2005

Volunteer

📅 April 2005 - April 2005

Internationally relevant event. Some tasks included:

Networking hardware setup

Technical support for public PCs area

Education

ISFT 151

Sr Technician (Unfinished)
Systems Analyst

FI UNMDP

Extensions Courses: Linux & Networks

📅 April 2011 - November 2011

📅 March 2012 - August 2014

EET N°5

High School

Software Development

📅 March 2008 - December 2010

Certificates

First Certificate in English - CEFR Level: B2

December 2017

Issued by: Cambridge English

Projects

Olive

For WhitePrompt

July 2021 - December 2021

🤠 Frontend Engineer

Typescript   React   Redux

Material UI   GraphQL

Invitation Homes

For BairesDev

October 2020 - December 2020

🤠 Fullstack Engineer

React   Redux   Node   PostgreSQL

Svelte

Modzy

For BairesDev

March 2019 - October 2020

🤠 Frontend Engineer

React   Recompose   Redux

FIS Investran - Report Wizard

For Quadion

April 2018 - August 2018

🤠 Fullstack Engineer

AngularJS   .NET   KendoUI

Formik   Material UI   Atomic Design

Storybook   Docker

FIS Investran - CRM

For Quadion

May 2017 - March 2018

🎩 Fullstack Engineer

AngularJS   .NET   KendoUI

Deloitte PFS

For Globant

August 2016 - October 2016

🎩 Frontend Engineer

AngularJS

LAN / LATAM Booking Box

For Globant

March 2016 - July 2016

🎩 Frontend Engineer

JavaScript   Backbone   Marionette

Underscore

LAN / LATAM Flight Status

For Globant

September 2014 - March 2015

🎩 Frontend Engineer

JavaScript   Backbone   Marionette

Underscore

CustomSearch

February 2017 - Present

Tool for turning REST requests into
custom SQL queries, searching in
multiple columns of a table

NodeJS   ExpressJS   Sequelize

MySQL   React

Misc projects

For Myself - Clients

December 2010 - January 2016

Portfolio showcasing screenshots from
old projects. Most of them are no longer
in production
